NOTEWORTHY NEWS

Sports Management Minor

The minor is designed to give students the opportunity to complement a major program of study with a concentration of courses in the industry. Students will be introduced to the basic principles of management, marketing, law, finance, and ethics in sport. They’ll have an opportunity to apply the basic principles to practical situations in the sport management industry: such as, facility and event planning, budgeting, and facility operations for the professional, semi-professional and collegiate sports venues. Students completing this minor will be equipped for graduate level inquiry and/or relevant careers in the sport manager industry.

University Center

The new University Center will open in fall 2015! Most prominent in the new building will be Dining Services. Retail dining space is contracted to be filled by Qdoba and Jamba Juice. Student Government and other student organizations will gain office and meeting space. It will also be the site of a new Career and Professional Development Center supporting UMW students in internship and job-related functions.
